Letter of Recommendation

This letter is to certify that Asadullah Hill Galib, Roll: MSSE-0718, Registration Number: 2014-016-466, is a regular student of Master of Science in Software Engineering (MSSE) at Institute of Information Technology (IIT), University of Dhaka. He has completed his Bachelor of Science in Software Engineering (BSSE) from the same institute. During the time, I noticed his interest in Android Operating System and Mobile Security.

Currently, He is doing his research under my supervision for the MSSE program of IIT. His area of interest is broadly Mobile Security. To be precise, he is working on Android malware detection. His research title is as follows, "Android Malware Detection: A Hybrid Approach using Machine Learning"

Asadullah Hill Galib is known to me since his undergraduate program and I find him enthusiastic and passionate about his work. His diligent ability will guide him to take new challenges in life. His research work is praiseworthy, and I wish him utmost success in his research.

Dr. B. M. Mainul Hossain

Associate Professor

Institute of Information Technology (IIT)

University of Dhaka
